JDW, Home & operating by phone from the flat of the back. 10/22/75

You will be seeing Andy Anderson (Whitten) whom I suspect helpful you can get this. I also suspect w/o credit to me. Les needed help on another story I think he may get do. He phoned me & then came to see me in the hospital Sunday with what has been leaked to him. I saw in it what he did not suggest an approach & a certain meaning, two ways of establishing, he tried both, both worked, & we have thus wrested perhaps Thousands of pages of FBI material not given to the W.C. Plus those in the FBI cued in on it & not [illegible] in WC files. They are also going hog for the FBI's editing of LHO's notebook to eliminate reference to Hosty (WW II & agent of world). They are after Gemberling, who did it. They will, I think, handle the FBI "explanation" as I suggested. Anderson & Les are working back to back on two stories & [illegible] I've given Les leads like Liss on and others including who to talk to on the destruction of the LHO - Hosty letter.

I wish I had a record of that Sunday conversation. My tough letters got through to him, he read me rightly and I don't think I've ever had as high praise for which there was no need from anyone. He has been saying the same things to Dave, who phone me in Kentucky.

If you see my work unredacted understand that I told Les I know Jack's hang ups and use without credit. This is why will say Not to found in the Archives what I'd be pulverized in Jackson in. I did also tell him that while I believe Jack will not, I'd like him to ask acknowledgement.

Best, H

Forward
